Statistical Power Analysis for the Behavioral Sciences (2nd Edition) by Jacob Cohen ISBN 0805802835

Statistical Power Analysis is a nontechnical guide to power analysis in research planning that provides users of applied statistics with the tools they need for more effective analysis. The Second Edition includes:

- * a chapter covering power analysis in set correlation and multivariate methods;
- * a chapter considering effect size, psychometric reliability, and the efficacy of "qualifying" dependent variables and;
- * expanded power and sample size tables for multiple regression/correlation.
