Community: 2nd edition (Key Ideas) by Gerard Delanty ISBN 0415496179

The increasing individualism of modern Western society has been accompanied by an enduring nostalgia for the idea of community as a source of security and belonging and, in recent years, as an alternative to the state as a basis for politics.

Gerard Delanty begins this stimulating introduction to the concept with an analysis of the origins of the idea of community in Western Utopian thought, and as an imagined pristine condition equated with traditional societies in classical sociology and anthropology. He goes on to chart the resurgence of the idea within communitarian thought, the complications and critiques of multiculturalism, and its new manifestations within a society where new modes of communication produce both fragmentation and the possibilities of new social bonds. Contemporary community, he argues, is essentially a communication community based on new kinds of belonging. No longer

bounded by place, we are able to belong to multiple communities based on religion, nationalism, ethnicity, life-styles and gender

## **Community: 2nd edition (Key Ideas) Review**

This Community: 2nd edition (Key Ideas) book is not really ordinary book, you have it then the world is in your hands.
