Oh Baby...: Birth, Babies & Motherhood Uncensored (Large Print 16pt) by Kathy Fray ISBN 1459657543

Refreshingly honest, openly frank and candidly blunt, this book has been written by a mother for other mothers. It oozes with warm fuzzies, it reeks of mumsy terms, it exudes realism in every paragraph and it is refreshing in its guiltless honesty. Modern first - time mothers are often alone - devoid of once traditional motherhood knowledge and practical support. Often previously self - confident women find themselves inconceivably isolated, hopelessly fumbling over everyday mothering tasks, enduring torturous levels of sleep deprivation, feeling desperately despondent and physiologically aching and leaking everywhere. This book provides supportive, caring advice - one Mum to another - while at the same time serving as an encyclopaedic medical reference regarding the mother and baby. Checked thoroughly by medical professionals, this book is a

unique blend, like having access to a kind and gentle GP as well as to all the gems of wisdom of years of mothers' coffee groups. This new title clearly and compassionately explains the ups as well as the downs which are perfectly normal aspects of giving birth and mothering in today's society. This edition is in two volumes. The second volume ISBN is 9781459657557.
