Lectures on the Philosophy of World History (Cambridge Studies in the History and Theory of Politics) by Georg Wilhelm Friedrich Hegel ISBN 0521281458

An English translation of Hegel's introduction to his lectures on the philosophy of history, based directly on the standard German edition by Johannes Hoffmeister, first published in 1955. The previous English translation, by J. Sibree, first appeared in 1857 and was based on the defective German edition of Karl Hegel, to which Hoffmeister's edition added a large amount of new material previously unknown to English readers, derived from earlier editors. In the introduction to his lectures, Hegel lays down the principles and aims which underlie his philosophy of history, and provides an outline of the philosophy of history itself. The comprehensive and voluminous survey

of world history which followed the introduction in the original lectures is of less interest to students of Hegel's thought than the introduction, and is therefore not included in this volume.
