Hematology: Basic Principles and Practice, 4e (HEMATOLOGY: BASIC PRINCIPLES & PRACTICE (HOFFMAN)) by Ronald Hoffman MD, Edward J. Benz Jr. MD, Sanford J. Shattil MD, Bruce Furie MD, Harvey J. Cohen MD PhD, Leslie E. Silberstein MD, Philip McGlave MD ISBN 0443066280

The fourth edition of this leading text reflects the new direction and growth of the field of hematology as an academic and clinical discipline. Edited and written by practitioners who are the leaders of the field, the book covers both the basic scientific foundations of hematology and its clinical aspects. It provides practitioners with the most comprehensive, authoritative, up-to-date information in hematology. The table of contents has been thoroughly revised with many new

chapters added, reflecting the rapidly changing nature of the molecular and cellular areas of the specialty. This definitive resource is the one comprehensive book needed by every practicing hematologist.

- Full color throughout for the first time (color figures in place!)
- E-dition available
- The definitive, complete reference resource for hematologic disorders provides "one-stop shopping" for information; appeals to both practitioners and researchers
- Red "opinion" boxes contain treatment strategies and recommendations by the experts
- Only text to include a section on transplantation
- Clinically oriented focus
- Includes more than 15 new chapters
