Telling Lies: Clues to Deceit in the Marketplace, Politics, and Marriage by Paul Ekman ISBN 0393337456

From breaking the law to breaking a promise, how do people lie and how can they be caught?

In this revised edition, Paul Ekman, a renowned expert in emotions research and nonverbal communication, adds a new chapter to present his latest research on his groundbreaking inquiry into lying and the methods for uncovering lies. Ekman has figured out the most important behavioral clues to deceit; he has developed a one-hour self-instructional program that trains people to observe and understand "micro expressions"; and he has done research that identifies

the facial expressions that show whether someone is likely to become violent. *Telling Lies* describes how lies vary in form and how they can differ from other types of misinformation that can reveal untruths. It discusses how a person's body language, voice, and facial expressions can give away a lie but still fool professional lie hunters—even judges, police officers, drug enforcement agents, and Secret Service agents.
