A Dynamic Model of Multilingualism: Perspectives on Change in Psycholinguistics (Multilingual Matters) by Philip Herdina, Ulrike Jessner ISBN 1853594679

The model presented in this volume draws together various strands of research - second language acquisition theory, bilingualism research, dynamic systems theory - to develop a novel approach to this challenging subject. Its main focus lies on the psycholinguistic dynamics of multilingualism, the processes of change in time affecting two or more language systems.
