Foxtown Jive: The Eye of Ra by Wade Butler ISBN B00ROHX1C6  
Ready for some fun?

Reviewer and Literary Critic Rich Hadley writes:

A genre-defying romp for the eclectic reader, this is The DaVinci Code meets Percy Jackson. Imagine Garrison Keillor describing Armageddon as it happens. Who would have thought the epicenter of global awareness would zero in on little Foxtown, Alaska?

Foxtown Jive is a semi-dark chocolate comedy that reads like it was ripped from today's headlines while informed by ancient myth and the harsh reality that humanity never changes. If the pursuit of the American Dream is a feel-good, sci-fi, psycho-social thriller, then grab your highest hopes and

follow a broken man's dream as he tumbles head first into dark, silent, cold reality matched only by the icy allure of the Alaskan landscape.

Trapped in solitude following a snow storm, the world unravels in political upheaval as governments restructure. You'd be surprised how crowded isolation can be. From his lonely cabin he ascertains what is going on in the world through his short wave radio companions, Scarf and a Chinese spy, Chuan.

The cabin's original occupant, Carlisle the mouse, provides charming parabolic reflection. The local radio station, KFOX, serves as a humorous, one-sided conversationalist worthy of credit as a supporting role.

The chaos happening in the world mirrors the same kind of crisis and reorganization happening inside him. Or maybe, it is the other way around.

The people of Foxtown discover they have unwittingly become the focus of the entire globe over matters of supreme secrecy and cloak and dagger cover-up. The entire town is oblivious to the fact that they have become the Foxtown Project: a federal agenda to relocate the entire community in order to retrieve the lost artifact.

No matter who you are or where you live, cataclysmic change will find you.

Great for book clubs, reading groups. Short chapters, fun reading with deep themes that do not fly over the head of young readers. Excellent reading for plane trips, airport layovers and anywhere short chapters and fun make the difference.

Conspiracy buffs will find nuggets everywhere and conspiracy debunkers will rethink their opinions. You will enjoy this book and pass it on to friends. "I'll read one more chapter" will cross your lips time and again until the shocking conclusion.

Foxtown Jive is the first of a Trilogy.

"Foxown Jive" - "The Eye of Ra"

"Foxtown Jewel" - "The House Ra Built"

"Foxtown Judgement" - "The Child of Ra"

Unforgettable characters, unusual and shocking situations mixed with a good dose of conspiracy in the middle of a comedic small town in Alaska will make you very happy you want to buy this book.
