When Britain Saved the West: The Story of 1940 by Robin Prior ISBN 0300166621

From the comfortable distance of seven decades, it is quite easy to view the victory of the Allies over Hitler's Germany as inevitable. But in 1940 Great Britain's defeat loomed perilously close, and no other nation stepped up to confront the Nazi threat. In this cogently argued book, Robin Prior delves into the documents of the time—war diaries, combat reports, Home Security's daily files, and much more—to uncover how Britain endured a year of menacing crises.

The book reassesses key events of 1940—crises that were recognized as such at the time and others not fully appreciated. Prior examines Neville Chamberlain's government, Churchill's opponents, the collapse of France, the Battle of Britain, and the Blitz. He looks critically at the position of the United States before Pearl Harbor, and at Roosevelt's response to the crisis. Prior

concludes that the nation was saved through a combination of political leadership, British Expeditionary Force determination and skill, Royal Air Force and Navy efforts to return soldiers to the homeland, and the determination of the people to fight on “in spite of all terror.” As eloquent as it is controversial, this book exposes the full import of events in 1940, when Britain fought alone and Western civilization hung in the balance.

## **When Britain Saved the West: The Story of 1940 Review**

This When Britain Saved the West: The Story of 1940 book is not really ordinary book, you have it then the world is in your hands.
