Geographical Knowledge and Imperial Culture in the Early Modern Ottoman Empire (Transculturalisms, 1400-1700) by Pinar Emiralioğlu ISBN 1472415337

Exploring the reasons for a flurry of geographical works in the Ottoman Empire in the sixteenth century, this study analyzes how cartographers, travellers, astrologers, historians and naval captains promoted their vision of the world and the centrality of the Ottoman Empire in it. It proposes a new case study for the interconnections among empires in the period, demonstrating how the Ottoman Empire shared political, cultural, economic and even religious conceptual frameworks with contemporary and previous world empires.
