Exploring Prehistoric Europe (Places in Time) by Chris Scarre ISBN 0195103238

Part travel guide, part survey of Europe's prehistory, *Exploring Prehistoric Europe* delves into fifteen of the most famous, most important, and most exciting archaeological sites in Europe.

The first volume in the Places in Time series, this beautiful book takes us to locales both famous and obscure, from Ireland to Poland to Malta, ranging chronologically from Terra Amata, a site in southern France occupied some 380,000 years ago, to Borremose, a Danish settlement that dates to Roman times. The author, archaeologist Chris Scarre, examines the haunting cave paintings of Lascaux, France; the stone circle and ritual complexes of Avebury, England; and the ever mysterious Stonehenge--as well as lesser known but no less intriguing sites around Europe. For each location, he conducts a careful tour of the existing remains, describes the history of its excavation, and then interprets how the site might have been built, used, or occupied. Readers will

explore a variety of cultures and monuments, from megalithic stone circles to Neolithic villages to Bronze Age tombs, and see intimate portraits of the daily life of Europe's prehistoric ancestors. Perhaps equally important, Scarre has selected the sites with accessibility in mind--all can be easily reached by the modern tourist--and he also highlights local museums and visitor centers where further artifacts and information can be found.

Beautifully illustrated with maps and full-color photographs, *Exploring Prehistoric Europe* makes the perfect companion for the historically minded traveler--or the reader who wants to curl up at home and wander at leisure through the distant past.
