Family Practice: Depression and Dementia: A Primary Care Perspective (Audio-Digest Foundation Family Practice Continuing Medical Education (CME). Book 59) by Audio Digest ISBN B008COOH78

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest Family Practice is specifically designed to provide the participant with state-of-the-art information which builds on the AAFP Core Educational Guidelines, including, but not limited to, the diagnosis and management of:

Alcoholism & Substance Abuse
Allergy & Immunology
Cardiovascular Medicine
Conditions of the Eye
Conditions of the Musculoskeletal System
Conditions of the Nervous System
Conditions of the Skin
Care of Adolescents & Older Adults
HIV Infection/AIDS
Human Behavior and Mental Health
Nutrition
Obstetrics and Gynecology
Occupational Medicine
Disease Prevention & Health Promotion
Rheumatology
Risk Management & Medical Liability
Sports and Recreational Medicine
Urgent and Emergent Care

The goal of this program is to improve management of depression and dementia. After hearing and assimilating this program, the clinician will be better able to:

- 1: Diagnose depression using the Patient Health Questionnaire (PHQ)-9.
- 2: Achieve remission of symptoms in patients with depression through the use of appropriate antidepressant therapy.
- 3: Prepare directed questions to help identify early warning signs of Alzheimer disease and dementia.
- 4: Counsel patients and family members about course of dementia and long-term care.
- 5: Perform efficient assessment of cognitive, neurologic, and motor-sensory function
