Disconnected by Andrew Leigh ISBN 1742231535

A forensic examination of Australian life, this insightful book suggests that contemporary society has lost touch with its communities and its people. Written from an economist's perspective and based on organizational membership records and surveys, it presents the reasons why the social fabric has begun to fray and outlines the necessary steps to create a better civic and personal life. Distilling various aspects of Australian routine—including religion, sport, and employment—this book reveals what is being lost and how to get it back.
