Small Wind Turbine Engineering: From idea to certification by Mr Svend W Enevoldsen ISBN 1515252019

Using the IEC 61400-2 standard as reference, Svend W. Enevoldsen is taking you step by step through all the important Engineering steps in design and documentation of a Wind Turbine. Moreover the specifications for the controller and manuals are explained in detail. The more than 30 years in the Wind Industry and 8 years as a lecturer at Danish University Wind Energy Training made Svend W. Enevoldsen decide to set the academic bar a degree lower than most other Wind Turbine Engineering Literature. Not only is he generously handing out Know How, but more importantly providing the reader with Know Why.

Small Wind Turbine Engineering: From idea to certification Review

This Small Wind Turbine Engineering: From idea to certification book is not really ordinary book, you have it then the world is in your hands.
