In The Secret Teachings of All Ages, Manly P. Hall looks deeply into every esoteric and mystical tradition known to mankind.

Manly P. Hall became known and respected as a lecturer and interpreter of the writings of the ancients and esoteric systems of philosophy. After The Secret Teachings of All Ages was published, Hall became an increasingly important figure in the metaphysical movement of the 1920s. Hall dedicated The Secret Teachings of All Ages to "the proposition that concealed within

the emblematic figures, allegories and rituals of the ancients is a secret doctrine concerning the inner mysteries of life, which doctrine has been preserved in toto among a small band of initiated minds." As one writer put it: "The result was a gorgeous, dreamlike book of mysterious symbols, concise essays and colorful renderings of mythical beasts rising out of the sea, and angelic beings with lions' heads presiding over somber initiation rites in torch-lit temples of ancestral civilizations that had mastered latent powers beyond the reach of modern man." In 1988, Hall himself wrote: "The greatest knowledge of all time should be available to the twentieth century not only in the one shilling editions of the Bohn Library in small type and shabby binding, but in a book that would be a monument, not merely a coffin."
