Assessment of Eating Disorders by ISBN 1593851960

Concise and practical yet comprehensive, this unique book provides a clear framework and a range of up-to-date tools for assessing patients with eating disorders. Leading clinicians and researchers describe the nuts and bolts of using diagnostic interviews, standardized databases, structured instruments, self-report and family-based measures, medical and nutritional assessment, ecological momentary assessment, and strategies for evaluating body image disturbance. Concrete examples and sample forms are included throughout, and the concluding chapter discusses how to use assessment data in individualized treatment planning.
