InterViews: Learning the Craft of Qualitative Research Interviewing by Steinar Kvale, Svend Brinkmann ISBN 0761925422

The *First Edition* of **InterViews** has provided students and professionals in a wide variety of disciplines with the “whys” and “hows” of research interviewing, preparing students for learning interviewing by doing interviews and by studying examples of best practice. The thoroughly revised **Second Edition** retains its original seven-stage structure, continuing to focus on the practical, epistemological, and ethical issues involved with interviewing. Authors Steinar Kvale and Svend Brinkmann also include coverage of newer developments in qualitative interviewing, discussion of interviewing as a craft, and a new chapter on linguistic modes of interview analysis. Practical and conceptual assignments, as well as new “tool boxes,” provide students with the means to dig

deeper into the material presented and achieve a more meaningful level of understanding.

Praise for the previous edition:

“I think this is one of the most in-depth treatments of the interview process that I have seen. The frank and realistic approach that the authors take to this topic is rather unique and will be very reassuring to researchers who are undertaking an interview study for the first time.”
