[(Body of Work: Meditations on Mortality from the Human Anatomy Lab)] [Author: Christine Montross] published on (June, 2008) by Christine Montross ISBN B00Y2RCK8C

A virtuostic memoir of discovery and illumination about life, death and the human body. A fascinating study of the history of the dissection of bodies by medical students. Part memoir, part love letter, part medical history part rationalization and part poetry..gripping. thought provoking.
