Changing Practices, Changing Education by Stephen Kemmis, Jane Wilkinson, Christine Edwards-Groves, Ian Hardy, Peter Grootenboer, Laurette Bristol ISBN 9814560464

This book aims to help teachers and those who support them to re-imagine the work of teaching, learning and leading. In particular, it shows how transformations of educational practice depend on complementary transformations in classroom-school- and system-level organisational cultures, resourcing and politics. It argues that transforming education requires more than professional development to transform teachers; it also calls for fundamental changes in learning and leading practices, which in turn means reshaping organisations that support teachers and teaching – organisational cultures, the resources organisations provide and distribute, and the relationships that connect people with one another in organisations. The book is based on findings from new research being conducted by the authors – the research team for the (2010-2012) Australian Research Council-funded Discovery Project Leading and Learning: Developing Ecologies of Educational Practice.
