

Managing Mathematical Projects - with Success! (Springer Undergraduate Mathematics) PDF

Managing Mathematical Projects - with Success! (Springer Undergraduate Mathematics) by Phil Dyke ISBN 1852337362

The first student-centred guide on how to write projects and case studies in mathematics, with particular attention given to working in groups (something maths undergraduates have not traditionally done). With half of all universities in the UK including major project work of significant importance, this book will be essential reading for all students on the second or final year of a mathematics degree, or on courses with a high mathematical content, for example, physics and engineering.
