

Protein-Lipid Interactions: From Membrane Domains to Cellular Networks PDF

Protein-Lipid Interactions: From Membrane Domains to Cellular Networks by ISBN 3527311513
In 17 contributions by leading research groups, this first comprehensive handbook in the field covers the interactions between proteins and lipids that make the fabric of biological membranes from every angle. It examines the relevant thermodynamic and structural issues from a basic science perspective, and goes on to discuss biochemical and cell biological processes. The book covers physical principles as well as mechanisms of membrane fusion and fission. Additionally, chapters on bilayer structure and protein-lipid interactions as well as on how proteins shape lipids and vice versa, membrane penetration by toxins, protein sorting, and allosteric regulation of signal transduction across membranes make this a valuable information source for researchers in academia and industry.

Protein-Lipid Interactions: From Membrane Domains to Cellular Networks Review

This Protein-Lipid Interactions: From Membrane Domains to Cellular Networks book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This kind of Protein-Lipid Interactions: From Membrane Domains to Cellular Networks without we recognize teach the one who looking at it become critical in imagining and analyzing. Don't be worry Protein-Lipid Interactions: From Membrane Domains to Cellular Networks can bring any time you are and not make your tote space or bookshelves' grow to be full because you can have it inside your lovely laptop even cell phone. This Protein-Lipid Interactions: From Membrane Domains to Cellular Networks having great arrangement in word and layout, so you will not really feel uninterested in reading.
