Empowerment In Social Work Practice: A Sourcebook by Lorraine Gutierrez ISBN 0534147402

As a philosophy and method of practice, empowerment provides a way to rethink one's approach to social work practice. This book provides specific examples of how empowerment practice is conducted in the field and gives social workers tools for incorporating empowerment in their own practice. In addition to Gutierrez, Parsons, and Cox, 13 authors contribute writings that demonstrate how empowerment practice can be used in different settings and with different populations. Empowerment in Social Work Practice presents a comprehensive model for empowerment practice with applications to key populations across all three levels of social work practice (micro, mezzo, and macro) and even to research, policy, evaluation, and administration.
