Black In America: Essays and Poems about Racism in America. Includes by The Prophet Of Life
ISBN B00S05QSXA

Black in America is an exploration of racism in America through essays and poems. It spans from the beginnings of the civil rights movement through today, including a powerful new poem "Baltimore" and a perspective on the church shooting in South Carolina. It takes a look at people who have been lightning rods for race relations in America and has some surprising insights into the people and events that have shaped race relations in America for the past 50 years. Issued on the 50th anniversary of The March on Selma Alabama (1965), this book is a good companion for anyone who wants to commemorate that event, the Civil Rights Movement itself or gain insight into race relations and racism itself.
