Theoretical Perspectives for Direct Social Work Practice: A Generalist-Eclectic Approach, Second Edition (Springer Series on Social Work) by ISBN 0826102867

Praise for the first edition

"Finally, a social work practice text that makes a difference! This is the book that you have wished for but could never find. Although similar to texts that cover a range of practice theories and approaches to clinical practice, this book clearly has a social work frame of reference and a social

work identity.

--**Gayla Rogers**, Dean of the Faculty of Social Work, University of Calgary

The major focus of this second edition is the same; to provide an overview of theories, models, and therapies for direct social work practice, including systems theory, attachment theory, cognitive-behavioral theory, narrative therapy, solution-focused therapy, the crisis intervention model, and many more. However, this popular textbook goes beyond a mere survey of such theories. It also provides a framework for integrating the use of each theory with central social work principles and values, as well as with the artistic elements of practice.

- A new chapter on Relational Theory, and newly-rewritten chapters by new authors on Cognitive-Behavioral Theory, Existential Theory, and Wraparound Services
- New critique of the Empirically Supported Treatment (EST) movement
- Updated information on the movement toward eclecticism in counseling and psychotherapy
- A refined conceptualization of the editors' generalist-eclectic approach
