The Genealogy of Morals (Dover Thrift Editions) by Friedrich Nietzsche ISBN 0486426912

Written in response to a book on the origins of morality by his erstwhile friend Paul Rée, the three essays comprising *The Genealogy of Morals* — all three advancing the critique of Christian morality set forth in *Beyond Good and Evil* — are among Nietzsche's most sustained and cohesive work.

In the first essay — starting from a linguistic analysis of words such as "good," "bad," and "evil" — Nietzsche sets up a contrast between what he calls "master" morality and "slave" morality and shows how strength and action have often been replaced by passivity and nihilism. The next essay, looking into the origins of guilt and punishment, shows how the concept of justice was born — and how internalization of this concept led to the development of what people called "the soul."

In the third essay, Nietzsche dissects the meaning of ascetic ideals.

It is not Nietzsche's intention to reject ascetic ideals, "slave" morality, or internalized values out of hand; his main concern is to show that culture and morality, rather than being eternal verities, are human-made. Whether or not you agree with all of his conclusions, his writing is of such clarity and brilliance that you will find reading *The Genealogy of Morals* nothing short of exhilarating.

## **The Genealogy of Morals (Dover Thrift Editions) Review**

This The Genealogy of Morals (Dover Thrift Editions) book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get.
