Mastering Medical Coding, 4e by Marsha Diamond CPC CPC-H ISBN 1416050353

Medical coding will become second nature with Mastering Medical Coding, 4th Edition! Created with students in mind, this text is approachable and packed with real-life practice exercises, and teaches students how to use physician documentation as the basis for complete, accurate coding. You'll strengthen your coding skills with exercises from Godfrey Medical-a simulated medical practice- Stop and Practice exercises, and additional exercises found in the student workbook and Evolve companion website. Visual and tear-out "tools" provide real applications for coding. Teachers benefit with a text that emphasizes actual patient record and documentation and is fully updated to reflect new codes and coding guidelines. In addition to fully updated content, the new edition has new content on anatomy and physiology, expanded discussion of the use of the medical record in coding, streamlined coding tools, and improved examples. Become prepared for a career in medical coding with Mastering Medical Coding, 4th Edition.

- Emphasis on physician documentation prepares students to locate and determine the actual "diagnosis" and

“procedure” from documentation.

- Coding reference tools, in an improved and streamlined form for the 4th edition, encompass important chapter content.
- Coding concepts are built upon basic ICD-9-CM and CPT concepts rather than a body system perspective for greater ease and productivity from students.
- Stop and Practice exercises, simulated medical practices, Chapter Review exercises with practical applications, and additional exercises in the student workbook means students constantly practice and reinforce their understanding of the information.
- NEW Anatomy/Physiology/Terminology chapter prepares students for proper coding by providing a good understanding of these basic concepts.
- Smaller sections and improved flow of the text means students understand and master the information more easily.
- EXPANDED illustrations of sample patient charts with improved explanations of proper code assignment.
- Fully updated content, including new codes and coding guidelines. New focus on ICD-10 content for those instructors who want to prepare students for ICD-10 implementation.
- NEW Evolve companion website contains interactive coding exercises and other review exercises for students’ practice.
