Death, Dying, and Loss by William Joseph Bray ISBN 1493608053

From the late Prof. W J Bray When confronted with death, dying, or loss, you want answers, not speculation. Most of this text is gleaned from a former work, Quantum Physics, Near Death Experiences, Eternal Consciousness, Religion, and the Human Soul. However, the focus in this text is not Quantum Theory but a substantial argument and explanation regarding a living being's fate after death. To do this, a 'little bit' of science, NDE, Religion, and Philosophy, are examined and explained going back to the origin of life. Written by a Quantum Theorist who has survived at least 30 medically documented Near Death experiences, the author goes deeply into those answers.
