Something New Under the Sun: An Environmental History of the Twentieth-Century World (The Global Century Series) by J. R. McNeill ISBN 0393321835

**"Refreshingly unpolemical and at times even witty, McNeill's book brims with carefully sifted statistics and brilliant details."? *Washington Post Book World***

The history of the twentieth century is most often told through its world wars, the rise and fall of

communism, or its economic upheavals. In his startling new book, J. R. McNeill gives us our first general account of what may prove to be the most significant dimension of the twentieth century: its environmental history. To a degree unprecedented in human history, we have refashioned the earth's air, water, and soil, and the biosphere of which we are a part. Based on exhaustive research, McNeill's story—a compelling blend of anecdotes, data, and shrewd analysis—never preaches: it is our definitive account. This is a volume in The Global Century Series (general editor, Paul Kennedy). 40 b/w photographs, 15 maps

## **Something New Under the Sun: An Environmental History of the Twentieth-Century World (The Global Century Series) Review**

This Something New Under the Sun: An Environmental History of the Twentieth-Century World (The Global Century Series) book is not really ordinary book, you have it then the world is in your hands.
