Centers and Peripheries in Knowledge Production (Routledge Advances in Sociology) by Leandro Rodriguez Medina ISBN 0415840791

This book examines the circulation of knowledge within globalization, focusing on the differences between centers and peripheries of knowledge production in the social sciences. It explores not only how knowledge is appropriated in peripheral fields but also how foreign ideas shape those fields and the trajectories of scholars, and uses actor-network theory to explain circulation of knowledge as an extension of socio-technical networks that transcend borders.
