Essays on Otherness (Warwick Studies in European Philosophy) by Jean Laplanche ISBN 0415131081

Since the death of Jacques Lacan, Jean Laplanche is now considered to be one of the world's foremost psychoanalytic thinkers. In spite of the influence of his work over the last thirty years, remarkably little has been available in English. *Essays On Otherness* presents for the first time in English many of Laplanche's key essays and is the first book to provide an overview of his thinking. It offers an introduction to many of the key themes that characterise his work: seduction, persecution, revelation, masochism, transference and mourning. Such themes have been increasingly both in psychoanalytic thought and in continental philosophy, social and cultural theory, and literature making *Essays On Otherness* indispensable reading for all those concerned with the implications of psychoanalytic theory today.
