Monitoring Education: Indicators, Quality and Effectiveness (School Development) by Carol Taylor Fitz-Gibbon ISBN 0304330701

In this text, the author draws on her experience as creator of the ALIS project (A-Level Information System), a quality monitoring and feedback system in use in many parts of the UK. She asks the question "how do we get quality into education?" and uses the positive lessons of ALIS to analyze the requirements of an effective, "value-added" monitoring system.
