This new work, *Tracing Ancestors Among the Five Civilized Tribes*, is designed to eliminate speculation and help you determine the truth about your possible links to the Cherokees, Choctaws, Chickasaws, Creeks, or Seminoles. It focuses on the toughest period to research--the century or so prior to the removal of the Southeastern nations to Indian Territory (the point at which records were regularly maintained). It provides the cultural, genealogical, and historical background needed to turn family stories into proved lineages. And it outlines a method of research that will take you as far back as the colonial and early federal periods and forward to the great tribal enrollment records of the late nineteenth century.
