Pattern Recognition, Machine Intelligence and Biometrics by ISBN 3642224067

"Pattern Recognition, Machine Intelligence and Biometrics" covers the most recent developments in Pattern Recognition and its applications, using artificial intelligence technologies within an increasingly critical field. It covers topics such as: image analysis and fingerprint recognition; facial expressions and emotions; handwriting and signatures; iris recognition; hand-palm gestures; and multimodal based research. The applications span many fields, from engineering, scientific studies and experiments, to biomedical and diagnostic applications, to personal identification and homeland security. In addition, computer modeling and simulations of human behaviors are addressed in this collection of 31 chapters by top-ranked professionals from all over the world in the field of PR/AI/Biometrics.

The book is intended for researchers and graduate students in Computer and Information Science, and in Communication and Control Engineering.

Dr. Patrick S. P. Wang is a Professor Emeritus at the College of Computer and Information Science, Northeastern University, USA, Zijiang Chair of ECNU, Shanghai, and NSC Visiting Chair Professor of NTUST, Taipei.

## **Pattern Recognition, Machine Intelligence and Biometrics Review**

This Pattern Recognition, Machine Intelligence and Biometrics book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This kind of Pattern Recognition, Machine Intelligence and Biometrics without we recognize teach the one who looking at it become critical in imagining and analyzing. Don't be worry Pattern Recognition, Machine Intelligence and Biometrics can bring any time you are and not make your tote space or bookshelves' grow to be full because you can have it inside your lovely laptop even cell phone. This Pattern Recognition, Machine Intelligence and Biometrics having great arrangement in word and layout, so you will not really feel uninterested in reading.
