In the Grade 7 curriculum, a thematic approach replaces the chronological approach employed in the earlier grades. Concentrating on the Old Testament, the unit focuses on such topics as God's covenant and his promise of a Savior. The unit on the feasts of Israel helps students make connections between the feasts and the work of Jesus Christ in the New Testament. The unit on Job and Ecclesiastes give students an opportunity to study two books of the Bible that were not presented in the previous grades. Studying Proverbs gives students practical guidelines for how they are to live as God's children, and walking with the prophets give students a personalized look at God's characteristics and the promises he made to Israel. In the unit on prayer, students learn more about God's gift of prayer, and how to use it to build their relationships with God. The final unit on literary genres was developed to assist students as they read Scripture. The patterns and

features of the literary techniques in the Bible will add another dimension to the students' Biblical understanding. The Teacher's guide includes: lesson plans, Bible resources, Bible memory, countless activity ideas, student workbook activity sheets in blackline master format, Head, Heart and Hand call-outs /descriptors, and the guide is in a "lay-flat" binding format.
