Playing with Religion in Digital Games (Digital Game Studies) by ISBN 0253012538

Shaman, paragon, God-mode: modern video games are heavily coded with religious undertones. From the Shinto-inspired Japanese video game *Okami* to the internationally popular *The Legend of Zelda* and *Halo*, many video games rely on religious themes and symbols to drive the narrative and frame the storyline. *Playing with Religion in Digital Games* explores the increasingly complex relationship between gaming and global religious practices. For example, how does religion help organize the communities in MMORPGs such as *World of Warcraft*? What role has censorship played in localizing games like *Actraiser* in the western world? How do evangelical Christians react to violence, gore, and sexuality in some of the most popular games such as *Mass Effect* or *Grand Theft Auto*? With contributions by scholars and gamers from all over the world, this collection offers

a unique perspective to the intersections of religion and the virtual world.

Playing with Religion in Digital Games (Digital Game Studies) Review

This Playing with Religion in Digital Games (Digital Game Studies) book is not really ordinary book, you have it then the world is in your hands.
