Environmental and Ecological Statistics with R, Second Edition (Chapman & Hall/CRC Applied Environmental Statistics) by Song S. Qian ISBN 1498728723

This new edition provides a substantial update, with a revised introductory chapter that better sets the scene for the role that statistics can play in the field. It includes new chapters on data manipulation and Bayesian statistics and a new final chapter on evaluating the use of statistics in published work. The R package supplementing the book has been expanded to include code for all the methods and examples.
