How to Become a Heroic Writer: Train Your Brain to Build Habits, Overcome Obstacles, and Reach Readers by Jerry Waxler ISBN 0977189554

In the 21st century, many of us feel the stirring of an audacious challenge. We want to ride the waves of global communication by writing compelling stories, articles, and essays. To complete and publish such works, we need courage, tenacity, good habits and hope. Throughout history, we have admired such qualities in our heroes. In the 21st century, science offers practical methods to help us achieve these qualities for ourselves. The techniques described in this book draw from the author's lifelong search for the science and art of becoming a writer. The explanations and exercises, originally developed for students in his writing workshops, will guide you on your quest.
