The Encyclopedia of Animals: A Complete Visual Guide by Fred Cooke, Hugh Dingle, Stephen Hutchinson, Richard Schodde, Noel Tait, Richard Carl Vogt ISBN 0520244060

The *Encyclopedia of Animals* is a lavishly illustrated, authoritative, and comprehensive exploration of the rich and intriguing world of animals. Written by an international team of specialists, spectacularly adorned with a gallery of more than 2,000 color illustrations, and supplemented with distribution maps, detailed and beautifully rendered diagrams, and some of the world's finest wildlife photographs, this volume will become the standard by which all others are measured. Each page is expertly laid out to enhance either browsing or in-depth study. Readers will find detailed coverage of all sorts of animals, including mammals, birds, reptiles, amphibians, fishes, and invertebrates.

The *Encyclopedia* includes an introductory overview of animal evolution, biology, behavior,

classification, habitats, and current conservation issues. An extensive encyclopedic survey of the animals follows, with special attention given to endangered and vulnerable species. All information is completely up-to-date, with the most recent scientific and conservation data.

Elegant graphics put a broad selection of information at readers' fingertips, including classification information, scientific and common names, distribution maps for all animal groups, conservation panels that focus on threatened species, accurate and detailed anatomical drawings, and illustrations of multiple species. Each section is color coded for easy identification of animal groups. Feature pages explore topics of particular interest and provide insights into animal behavior. With its expansive scope, richly detailed information, and inviting design, this will be the ideal reference for a broad range of uses.
