Urban Transportation Innovations Worldwide: A Handbook of Best Practices Outside the United States by Roger L. Kemp ISBN 0786470755

This handbook of urban transportation planning presents case studies detailing 40 best practices from 33 states in the U.S. and 19 countries on six continents. Cities around the world have improved transportation options for their citizens. Roadways have seen the addition of walkways and bicycle lanes, and light-rail transit systems have reduced street traffic. These cities have decreased reliance on personal cars and enhanced their urban environments by reducing congestion, pollution, and the number and width of roadways. This volume discusses the dynamic field of urban transportation planning and provides resources for planning professionals and public

officials interested in obtaining additional information on the latest trends.
