Count Zero by William Gibson ISBN 0441117732

Turner, corporate mercenary, wakes in a reconstructed body, a beautiful woman by his side. Then Hosaka Corporation reactivates him for a mission more dangerous than the one he's recovering from: Maas-Neotek's chief of R&D is defecting. Turner is the one assigned to get him out intact, along with the biochip he's perfected. But this proves to be of supreme interest to certain *other* parties--some of whom aren't remotely human.

Bobby Newmark is *entirely* human: a rustbelt data-hustler totally unprepared for what comes his way when the defection triggers war in cyberspace. With voodoo on the Net and a price on his head, Newmark thinks he's only trying to get out alive. Until he meets the angel.

A stylish, streetsmart, frighteningly probable parable of the future.

## Count Zero Review

This Count Zero book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get.
