Back to the Garden by Clara Hume ISBN B0095B4650

Clara Hume's novel takes the reader through apocalyptic America, after climate change and other ecological disasters have devastated the planet. Rather than being an action-packed dystopian novel, *Back to the Garden* is speculative, literary fiction that looks at human interaction, adaption, regret, and cultural evolution after the collapse of society as we know it. Not all doom and gloom, the novel offers hope, laughter, and determination.

A group of survivors heads out to find loved ones, meanwhile facing painfully nostalgic memories of a different world as well as struggling through personal loss and tragedy. Across fierce deserts and ghost towns, contaminated lakes and rivers, and deplorable faces of death, the group develops surprising relationships and resolutions.

This novel presents a frightening and tragic possibility for our future but doesn't ignore our

affirmative connection to nature and other people. The novel attempts to open people's eyes to the importance of respecting limits, before it's too late.
