Identity Development of College Students: Advancing Frameworks for Multiple Dimensions of Identity by Susan R. Jones, Elisa S. Abes ISBN 0470947195

Identity Development of College Students

Building off the foundational work of Erik Erikson and Arthur Chickering, *Identity Development of College Students* adds broad and innovative research to describe contemporary perspectives of identity development at the intersection of context, personal characteristics, and social identities. The authors employ different theoretical perspectives to explore the nature of context—how it both influences and is influenced by multiple social identities. Each chapter includes discussion and reflection questions and activities for individual or small group work.
