Graham Greene's Catholic Novels: An Essay by Michael Giffin ISBN B00EIDAJ0G

Graham Greene has survived as a much-admired but much-criticized author whose work evokes powerful emotions: positive and negative. While his novels continue to challenge secular and religious readers alike, it is not possible to dichotomize these challenges as secular or religious, as the spectrum along which they occur is too broad and varied. As far as Greene's religious fiction is concerned, secular readers can no longer appeal to its psychological improbability, and religious readers can no longer appeal to its heterodoxy, without considering how these concepts are defined and measured in the kind of religious fiction Greene wrote. This essay reassesses the four Catholic novels: "Brighton Rock", "The Power and the Glory", "The Heart of the Matter", and "The End of the Affair" (5,700 words).
