Boosting Your Baby's Brain Power by Susan M. Heim, Holly Engel-smothers ISBN 0910707901

With more than 100 billion neurons that would stretch more than 60,000 miles, a newborn baby's brain is quite phenomenal! These neurons must generally form connections within the first eight months of a baby's life to foster optimal brain growth and lifelong learning. Mommies, daddies, and caregivers are extremely vital to ensuring babies reach their full potential, and this parent guidebook offers descriptive explanations for developing and nurturing maximum brain power during the essential early years. Topics include:

Factors that influence brain growth in the womb;

Fattening up the brain;

Windows of opportunity;

Development of language, vision, hearing, & motor skills

Red flags in your baby's development;

Uncovering your baby's temperament
