The Lesser Evil: Political Ethics in an Age of Terror (Gifford Lectures) by Michael Ignatieff ISBN 0691123934

Must we fight terrorism with terror, match assassination with assassination, and torture with torture? Must we sacrifice civil liberty to protect public safety?

In the age of terrorism, the temptations of ruthlessness can be overwhelming. But we are pulled in the other direction too by the anxiety that a violent response to violence makes us morally indistinguishable from our enemies. There is perhaps no greater political challenge today than

trying to win the war against terror without losing our democratic souls. Michael Ignatieff confronts this challenge head-on, with the combination of hard-headed idealism, historical sensitivity, and political judgment that has made him one of the most influential voices in international affairs today.

Ignatieff argues that we must not shrink from the use of violence--that far from undermining liberal democracy, force can be necessary for its survival. But its use must be measured, not a program of torture and revenge. And we must not fool ourselves that whatever we do in the name of freedom and democracy is good. We may need to kill to fight the greater evil of terrorism, but we must never pretend that doing so is anything better than a lesser evil.

In making this case, Ignatieff traces the modern history of terrorism and counter-terrorism, from the nihilists of Czarist Russia and the militias of Weimar Germany to the IRA and the unprecedented menace of Al Qaeda, with its suicidal agents bent on mass destruction. He shows how the most potent response to terror has been force, decisive and direct, but--just as important--restrained. The public scrutiny and political ethics that motivate restraint also give democracy its strongest weapon: the moral power to endure when the furies of vengeance and hatred are spent.

The book is based on the Gifford Lectures delivered at the University of Edinburgh in 2003.
