The New Media Invasion: Digital Technologies and the World They Unmake by John David Ebert
ISBN 0786465603

From the 15th century until the mid-1990s, media based on the printed word--books, magazines, handbills, newspapers, and journals--dominated society. Today, an onslaught of digital media centered on the Internet is developing at a breathtaking pace, destabilizing the very idea of printed media and fundamentally reshaping our world in the process. This study explores how Internet entities like Amazon, YouTube, Facebook, Wikipedia, and Google, and gadgets such as digital cameras, cell phones, video games, robots, drones, and all things MacIntosh have affected everything from the book industry and copyright law to how we conduct social relationships and

consider knowledge. Including a chronology of significant events in the history of the digital explosion, this investigation of the often overlooked "shadow" side of new technology chronicles life during a radical societal shift and follows the process whereby one world disintegrates while another takes its place.
