ADHD. What do you think about when you hear those letters? Do you think about kids running around, or do you picture someone who can't stay focused on someone for very long. Perhaps you think that the disease is not real at all, and believe that it's due to poor parenting. In this book, ADHD will be explained fully, and you may something new you didn't about it.

This book includes:

- What ADHD is and what types of ADHD are out there. Is there a difference between ADD and ADHD? What are the symptoms? All of this will be explained.
- A chapter debunking the many myths that surround ADHD. Is ADHD due to improper parenting? Will Ritalin really turn a person into a zombie? We'll answer these burning questions.
- How to properly diagnose ADHD.
- Many ways on how to treat ADHD.

All this and much more will be covered in this book. So if you have a child with ADHD, think that you have ADHD, know someone who has it, or just want to know more about it, look no further. In an easy-to-read guide, we'll explain all there is to know about ADHD in one fast-paced book.
