Tourism and Inclusive Growth in Small Island Developing States by Julia Jeyacheya, Mark P. Hampton ISBN 1849291071

This report explores the key issues concerning how tourism might facilitate inclusive growth for small island states. It provides detailed analysis of both the direct and indirect channels through which the gains from tourism are achieved, and the existing gaps that prevent a fuller capturing of forward and backward multipliers. Using robust statistical data from Jamaica, Maldives, Mauritius and the Seychelles and other small states, the study also examines land-based and cruise tourism operations and explores how local supply chains could be enhanced. The two key overarching recommendations – improving data collection and promoting niche markets – serve both as rallying points for policy action and as points of focus for partnerships.

Tourism and Inclusive Growth in Small Island Developing States Review
