A Spirit of Hope offers a viable pathway to the spiritual universe. A stepping-stone onto the pathway is provided by supernatural encounters experienced by the author and individuals from various walks of life. An in-depth probe of the spiritual encounters leads very quickly to a question of a spiritual reality. While probing spiritual reality, the author is confronted with our understanding of material reality. Material reality suddenly gets entangled in a maze of quantum reality. The author concludes that there are remarkable similarities between material reality and spiritual reality.
