Trey's story.

For the past six years at the University of Oregon, Trey has been completely focused on studying.

With no time for relationships, he's had to rely on the occasional hookup to fulfill his physical need for companionship. Now that he's almost done with his Masters in Biology, his attention is on his career. Relationships will have to wait. Again.

Chuck is hitching his way across the country, doing what he must to survive while trying to stay off the radar of an abusive ex. He just wants to get to L.A. in one piece so he can start over. His job skills are limited, but anything will be better than what he's running from. Hiding is hard but Chuck isn't ready to be found.
